

Bar color indicates the associated process

- Resource natural gain or loss (S)
- Actor or Decision Center natural gain or loss (L or I)
- Extraction (E) or Access (A)
- Policy Support/Resistance (F)
- Collaboration/Undermining (W)
- Decision Center Support/Resistance (K)
- Not associated with a particular process
(e.g. overall turnover)

Small System

(a)

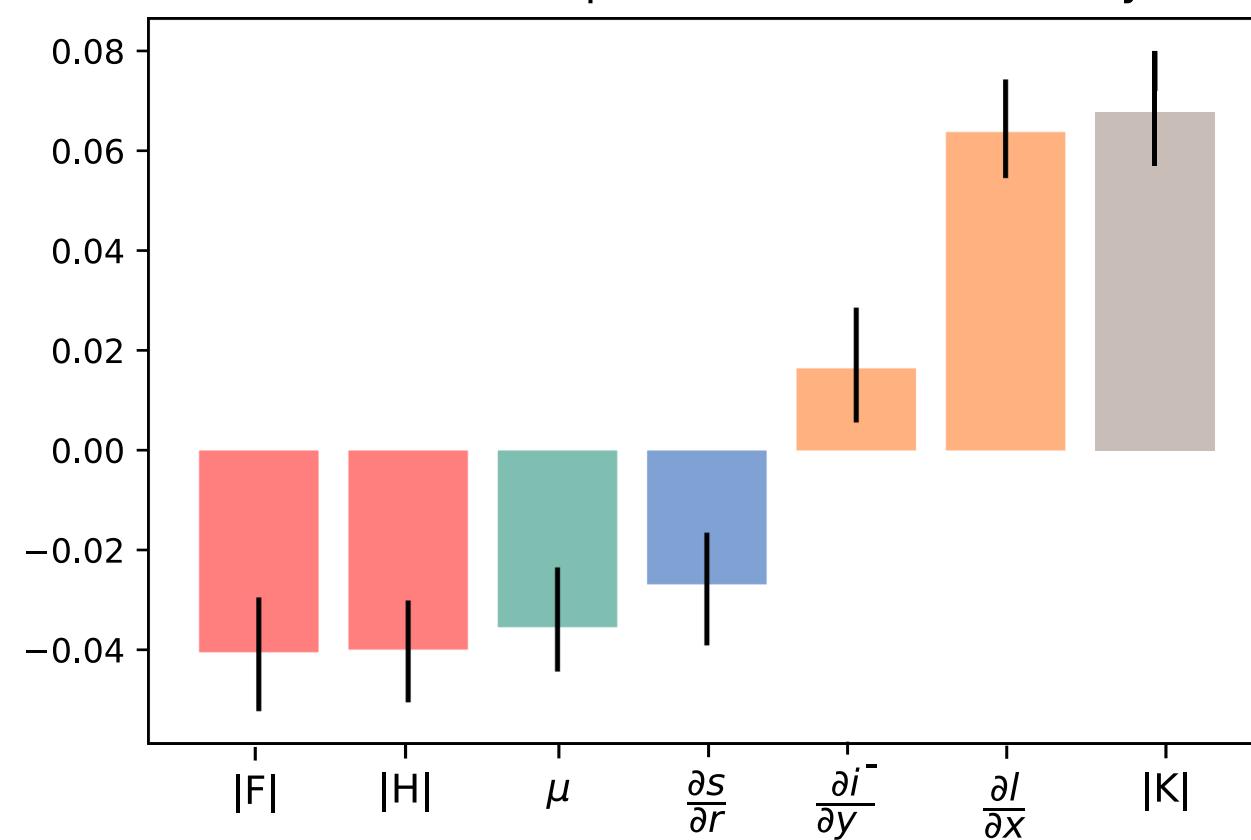

Correlation of parameters with stability

Large System

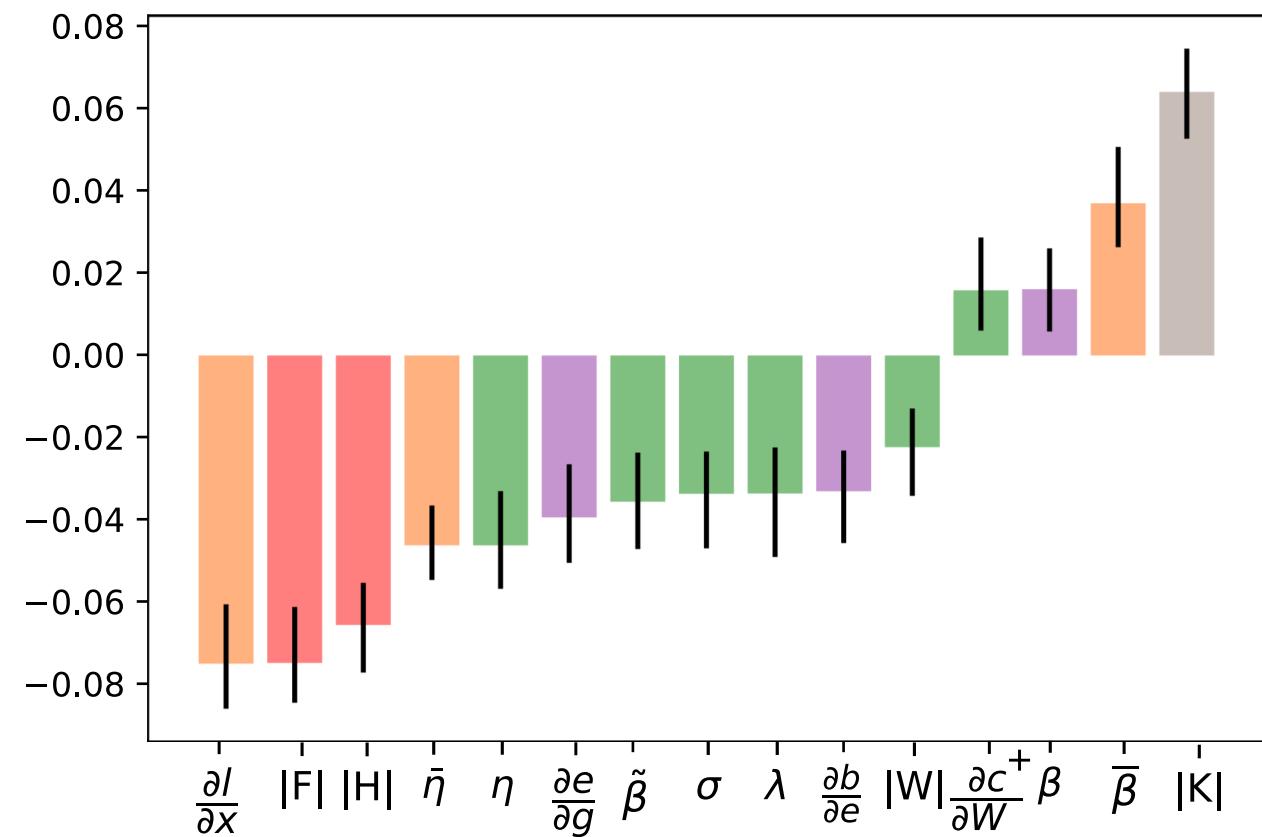

(b)

Correlation of parameters with stability

(c)

Correlation of parameter standard deviation with stability

(d)

Correlation of parameter standard deviation with stability
