Response to the comment of anonymous referee #1 on "Entropy Production of Soil Hydrological Processes and its Maximisation" by P. Porada, A. Kleidon, and S. J. Schymanski

P. Porada, A. Kleidon, and S. J. Schymanski

We would like to thank the referee for his thorough review of the manuscript and for his helpful comments that will help improving the manuscript. A detailed response to the referee's comments is attached as supplementary material. It can be accessed by clicking on the weblink below this text. By changing our manuscript according to this response, we hope to account for all concerns raised by the referee.
