Received and published: 13 April 2012

Dear Troy,

Please submit a revised manuscript, taking into account all the reviewers' comments, questions and suggestions.

Given the relatively long discussions this manuscript has engendered, please be sure to upload, as part of the revision, a document containing a clear point by point response to each of the reviewers' comments. The inclusion of a diff file, which shows exactly where the manuscript has been changed is not obligatory, but would be much appreciated.
