Kind Editors, referees and reviewer

Looking at all comments and reviews, we identify 3 main aspect to improve our papers: the first is the connection between methodological steps (in detail, explain it is needed to explain briefly how the alerting system starts

the second aspect refers to wider comment of formulas

the third is related figures/schemes and logical paths connecting the methodology's steps .

C629

Secondary we have to correct all typos and to add some references.

We will explain in a further comment how we have done all, in order to provide a finale version of the paper

Thanks to all for your suggestion
