

In my previous post I added some web-links that apparently are not working.

I am adding these web-links here again

Nicola Scafetta Comments on “Solar Trends And Global Warming” by Benestad and Schmidt

<http://pielkeclimatesci.wordpress.com/2009/08/03/nicola-scafetta-comments-on-solar-trends-and-global-warming-by-benestad-and-schmidt/>

The same article was then published and commented in several other blogs, e.g. at WUWT

Scafetta: Benestad and Schmidt’s calculations are “robustly” flawed.

<http://wattsupwiththat.com/2009/08/04/scafetta-benestad-and-schmidt%E2%80%99s-calculations-are-%E2%80%9Crobustly%E2%80%9D-flawed/>

Aren’t End Points Pesky? Scaffetta responds to BS09.

<http://rankexploits.com/musings/2009/arent-end-points-pesky-scaffetta-responds-to-bs-paper/>

Scafetta N., 2013. Discussion on common errors in analyzing sea level accelerations, solar trends and global warming. *Pattern Recognition in Physics*, 1, 37–57.
