Interactive comment on “Seasonality of the hydrological cycle in major South and Southeast Asian River Basins as simulated by PCMDI/CMIP3 experiments” by S. Hasson et al.

A. Kleidon (Editor)

akleidon@bgc-jena.mpg.de

Received and published: 21 October 2013

This manuscript has now been reviewed by two referees. Both reviews provide very positive evaluations of this manuscript, asking for minor revisions, mostly regarding cited literature, significance of results, and language editing. Despite several attempts, it was not possible to get a third review in a timely fashion. Given that the two reviews are very supportive and after my own reading, I ask for minor revisions of this manuscript.
