

Interactive comment on “Observationally based analysis of land–atmosphere coupling” by F. Catalano et al.

F. Catalano et al.

franco.catalano@enea.it

Received and published: 1 February 2016

First of all, we would like to thank the reviewers for their work. We found their comments helpful and we think they have given a contribution in increasing the quality of this paper. We have modified the manuscript addressing all the reviewers’ requirements and suggestions and we believe that the revised manuscript is much improved.

Please refer to the supplementary file for our detailed reply to the reviewers’ comments.

Please also note the supplement to this comment:
