Authors' Response to Reviewer Comments:

We thank Reviewer #1 (Reik Donner) and Reviewer #2 (Warner Marzocchi) for their positive, insightful and constructive comments on our manuscript, and for waiving their right to anonymity.

We include in the attached PDF file (please see URL below) some initial author responses [highlighted grey] to each of the reviewer comments. We believe the comments made by both reviewers are fair and will improve our overall argument, and thank both Reik Donner and Warner Marzocchi for their time in helping us to create a

paper with a clearer argument.

We look forward to any further comments from the reviewers or editor. We would be delighted to then prepare and submit a revised manuscript based on these comments and any further advice from the editor.
