

Interactive comment on “Population exposure to droughts in China under 1.5 °C global warming target” by Jie Chen et al.

Jie Chen et al.

chenj.16s@igsnr.ac.cn

Received and published: 6 March 2018

Attached the marked up version manuscript.

Relative to the old manuscript, substantial revisions were made in this version based on the comments/suggestions from the editor and three reviewers. The texts mark in red, blue and purple are modifications according to reviewer #1, 2 and 3 respectively. We thank the editor and anonymous reviewers for their helpful comments.

Please also note the supplement to this comment:
