Dear authors, Dear reviewers,

I would like to thank you all for your contribution to Earth System Dynamics. The authors are kindly requested to post public comments to the review comments which have been addressed (but there is no need to produce a revised manuscript at this stage), after which I will close the discussion, and proceed with the next step. Most likely the article will be sent for review again, but we will take all necessary measures to avoid any further delays in the processing of the article.
