We would like to include these videos to provide additional information that demonstrates the validity of Hilbert analysis:

<https://www.dropbox.com/sh/87txchq7aoibjst/AAC-4fv2INyt5OI1RvTou17oa?dl=0>

The three videos show in a map the time-averaged evolution of $\cos(\text{phase})$ along a typical year (i.e. averaging $\cos(\text{phase})$ over all the years), a El Niño year (averaged selecting only periods of El Niño) and a La Niña year (averaged selecting only periods of La Niña).
