

Interactive comment on “Global meteorological drought and severe drought affected population in 1.5 °C and 2 °C warmer worlds” by Wenbin Liu et al.

Wenbin Liu et al.

liuwb@igsnr.ac.cn

Received and published: 10 January 2018

Attached please find the final revised manuscript (clean version).

Relative to the old manuscript, substantial revisions were made in this version based on the comments/suggestions from the editor and two reviewers. We thank the editor, Dimitri Defrance and anonymous reviewer for their helpful comments.

Please also note the supplement to this comment:
