Dear Gustav,

Thank you for pointing out this mistake. The mistake was such that Fig. 3c (temperature) was accidentally repeated in Fig. 4c (precipitation). As such, Fig. 3 and its discussion in the text are correct, while Fig. 4c and its discussion in the text (line 35) need to be corrected. The conclusions are not affected by this revision.

We are providing the correct Fig. 4 and text here and will include it in the revised version.

Original text line 35: "...global averages for 1st and 4th decade in CMIP5/6: 17/40% and 59/65%;..."

C1

Corrected text line 35: "...global averages for 1st and 4th decade in CMIP5/6: 17/17% and 59/59%;..."

With thanks and best regards,

Flavio Lehner
