Comments:

1) Meteo-tsunamis are not mentioned in the text, but only in Figure 14.
2) It is not clear from Figure 14 where the arrows are pointing to. For example, it might seem that "heavy snow fall" causes "storm surges". The boxes should be re-arranged to avoid confusion.
3) Please, check carefully the manuscript for any misprints as it may be the last chance to introduce any correction into the text.

Checking your paper, I noticed that your table 1 contains coloured cells. Please note that this will not be possible in the final revised version of the paper due to HTML conversion of the paper. When revising the final version, you can use footnotes or italic/bold font. For now, the process will continue, but please note that the final version cannot be published by using coloured tables.

Response:

1. A sentence is added.
2. Figure 14 is redrawn
3. Manuscript is checked
4. Table 1 is changed (no colored cells)
